VOL. 28.

MARION, CRITTENDEN COUNTY, KENTUCKY, MAY 9, 1907.

NUMBER 49.

DO YOU WANT TO BUY A BUGGY OR SURREY? IF SO GO TO T. H. Cochran & Company

They have the famous Delker and Owensboro buggies in all styles. They can sell you a Top Buggy with leather trimmings and leather quarter top, Harness, Lap Robe and Whip all complete for \$45.00

We have just received a car of Studebaker Wagons

We have over 500 of these wagons in use and they are all giving entire satisfaction.

Are you going to paint your house? If so use the best, its the cheapest. The best is

New Era Paint

You can't reap if you don't sow. Meadows are looking awful bad. Come get a few bushels of Millet Seed and Stock Peas

We have just received a car of American Field Fence

The best on earth. Come in and get what you want while it is wet. You can have it up by the time the ground gets ready to plow.

Refrigerators and Freezers

Our stock is complete. Call and inspect them

We carry a full and complete line of MINING SUPPLIES

Tobacco is a fine price. This is the year to grow tobacco, and to do this you will need fertilizer. We have just received two cars of the best you can buy for the money.

Just about time to plow corn and you will save money and time to buy you a cultivator. We have the

Buckeye and Sunbeam

Its time to clean up and sprinkle lime around. We have a fresh car, give us your order and we will send you a barrel. Why don't you 'phone us for a

High Wheel Lawn Mower

THE ALUMNI

Large Number of Graduates Gathered at School Auditorium Monday Night.

Alumni of the Marion graded school were held at the school chapel Monday night of this week, and was far the most successful of the pleasant events of this kind which have been had since the organization of the school in 1894. The programme included addresses by graduates, vocal solos, piano accompaniment and music by the Marion Silver Band.

The welcome address, which was given by Attorney W. H. Clark, was well received and received the approval of the members of the class. He reminded his fellow graduates that whatever mistakes had been made during their school days, they were now forgotten and that they came together as a class and in one common bond. All were made to realize that it was not a welcome in words, but in spirit as well. The address was given by Miss Ethel Hard, who was appreciated and warmly received. By her talk, Miss Hard showed those present that the life along the path of duty was not all and lead to distinction. After round of laughter was given, Miss Ina Price gave a very attractive style, "Clips of Pranks in School." Miss Ina had her subject in hand, is a splendid speaker and was at all times at perfect ease. She told of the many pranks that had played in the Marion Graded School, putting out among the graduates many of his victims. The audience was delighted and after cheer greeted her remarks.

The Valedictorian of the High School class, Miss Mary Deboe, was called upon for a speech, she being a popular favorite with all of the graduates and faculty as well. Miss Deboe is one of the best speakers who has ever attended the school, and is highly entertaining. Her speech upon this occasion was no exception to her usual way of doing things, and was one of the real features of the evening.

The lovers of music, and especially those who are partial to vocal and instrumental solos, were delighted with the selections given by Misses Sallie Woods, Pearl Doss and Gustava Haynes. The pieces were all well rendered and proved quite a treat to those present.

One of the leading features of the evening was the splendid music made by the Marion Silver Band. This was especially enjoyed by those who participated in the march, as they kept step with the music, that they with an inspiration and interest that showed the members of the

alumni to be bound by ties stronger and more eternal than fingers of steel.

The foundation on programme, which it selected Miss Mildred Haynes to discuss. Our Graduates of Former Days, was not without reason for so doing. While a graduate of a former class and of a former year, Miss Haynes had watched with much pride the graduates of the Marion Graded School as they had gone to the different states and assumed many of the most responsible positions of trust and honor to be had. Among the long list of graduates who had brought honor to the school, after under going test after test, she made special mention of Julius Pelt, Lanny Towery, F. D. Maxwell, Kay Kevil, Albert Order and as she put it, "last but not least, except in point of size, Virgil Y. Moore."

The subject, "In Remembrance of Me," as handled by Mr. Gray Rochester was one of the hits of the evening. Gray is a graduate of the High School class and is known as a ready speaker and debater. He elicited much applause from the audience.

Misses Leola Wilborn, Ina Price and Mildred Haynes, had charge of the invitations and the refreshments. The refreshments consisted of ham sandwiches, pickles, salted peanuts, ice cream, sherbet and cake. To say that these young ladies were in charge of the refreshments is a guarantee that this part of the programme was all that could have been asked for or expected.

Prof. Kee, who acted as toastmaster of the occasion, had a pleasant smile and kind word for every one. While yet a young man as an instructor he is old in the popular regard. The school has had him for two terms and his good judgment to a great extent led to the excellent success of the alumni.

There were many of the old graduates present who were glad to again spend a few pleasant hours in meeting and mingling with their classmates of other days as well as to form many new acquaintances, who were members of this year's class.

In short the alumni was a great success and all who attended will long remember the happy occasion.

The officers elected for next year were as follows: President, C. W. Haynes; treasurer, Robert Cook; secretary, Miss Mary Deboe.

The Record Building Case Reversed.

The one two story concrete building known as the Whitehouse building, the office of which is now occupied by the Record-Press, has been in court for several months and at the June, 1906 term of the Crittenden Circuit Court, judgment was rendered against the mortgagee, John Scheas, whereby the various debts against the building were made prior and preference claims to that of the mortgagee, Scheas. Deboe and Moore, Attorneys for Scheas, appealed and the case was reversed last week.

NOT EVEN CONSIDERED

Rumors of the Consolidation of the Central Home and Bell Telephone Companies Denied.

J. C. Monteith, vice president of the Central Home Telephone Company, said yesterday that there was absolutely no truth in the report that a deal was on whereby the Bell Telephone Company had acquired or would acquire the independent telephone interests in Kentucky, Tennessee, Missouri and Southern Indiana. The report was published several days ago that such a deal was on and that it was likely that the independent and Cumberland companies in this city would be consolidated. Mr. Monteith said that there was absolutely no truth in the report and that there was no foundation whatever upon which to base such a report.

"No negotiation of any kind have been entered into," said Mr. Monteith. "The report that such a deal was on, doubtless, originated from some unformed person, who, hearing that the American Telephone and Telegraph Company had sold \$40,000,000 of its bonds recently, did not know that the bulk of that sale was necessary for the payment of notes issued two years ago by that company and payable May 1. The statement, which originated in New York, is preposterous on its face for the reason that it would be impossible to acquire the independent interests in such a short time even if it were contemplated. Moreover, it is not likely that Frederick P. Fish would have consummated any such deal upon the eve of his retirement from office May 1, he having resigned as president, director and member of the Executive Committee of the American Telephone and Telegraph Company. He was succeeded by Theodore M. Vail.

"The whole story is a fabrication from beginning to end," continued Mr. Monteith, "as far as the independent interest in the territory mentioned is concerned. However, the Central Union Telephone Company, the Bell Company operating in Indiana, has offered to withdraw all of its local exchanges from that State, excepting possibly Indianapolis, provided the independent telephone exchanges throughout the State would permit the Bell Company to connect their wires with the independent exchanges and give them just such long-distance business as could not be handled by the independents for points that the independents do not now reach, such as New York, Boston, Denver and New Orleans."

Mr. Monteith added that this proposition had never received favorable consideration from the independents. —Courier-Journal.

If you want a reaper, mower or binder, call on Eskew Bros. They handle the best, the McCormick.

Cain-Hill.

Last Monday afternoon at Blackford Miss Myrtle Hill, the talented daughter of E. R. Hill, one of the county's most prominent citizens, was united in marriage to Mr. C. N. Cain, of Clay, Ky., son of Butler Cain, of the Weston vicinity. The ceremony was performed by the Rev. J. R. King.

Mrs. Cain is well known here being the sister of Mrs. J. L. Stewart at whose home she frequently visits. She has been the housekeeper for her father since her mother's death and she will be doubly missed at home on that account.

The happy couple went to the home of the groom's parents for the wedding supper and from there to Clay where the groom has a lucrative position.

The Record-Press extends congratulations.

Kentucky and Indiana Company.

The Indiana and Kentucky Fluor Spar, Lead and Zinc Mining Company with \$50,000 capital was organized last Friday with the following list of officers:

Harry Watkins, president and director, M. Copher, secretary and director, J. M. Persons, general manager and director, Dr. Beeler, director Evansville; Attorney Wilson, director, Washington, Ind.; Attorney Hesse, treasurer Evansville.

The company owns the Ebbie Hodge mine, near Emmaus, which is said to be one of the finest properties in this district and arrangements are being made to put a large force to work on this vein at once.

The well known quality of the spar from this property, and others in that vicinity, together with the personnel of the management assures the stockholders of fine dividends as soon as the roads will permit the output to be moved to the market.

DROWNS IN CREEK

Henry A. Condit Meets Death in High Waters of Crooked Creek Monday.

Monday afternoon about 4 o'clock Henry A. Condit, son of Mr. and Mrs. W. G. Condit, was drowned in Crooked Creek near his home. No one was with him and the exact cause will never be known. The male he was riding returned to the shore from whence they started, riderless, and from all indications on the bank had not gone in at the ford, but about forty feet below the ford, where there was a very steep bank and deep hole, and as the creek was running swiftly and was bank full from recent rains it is a mystery why he went into the creek at that deep place or why he rode into the creek at all as the place of Mr. Beard, where he had gone on a business trip, was on the same side of the creek as the Condit home. The body was searched for by all the neighbors for several hours and was recovered at 8 o'clock Monday night.

The shock was a terrible one for his parents and brothers and sisters. He was born Aug. 4, 1887, and was therefore in his twentieth year. The funeral was conducted by Rev. Benjamin Andros at the family home and the burial took place Tuesday afternoon at the new cemetery.

The deceased was a member of the Presbyterian church in this city and was a young man of exemplary habits and was a general favorite where known. Mr. and Mrs. Condit have the deepest sympathy of all in their great affliction.

New Graham flour at Morris & Yates.

The Boys' Brigade.

One of the principal and most interesting feature of the circus was the Boys' Brigade in the parade.

Just before the evening performance, a parade was formed in which the boys took part. They were dressed in blue uniforms and caps. And as the boys marched around the ring, they were greeted with loud applause from the audience. They had been well drilled and all through the march kept splendid time.

The Brigade is composed of about fifty boys, who take a great deal of interest in their drill work. They have only been organized about three months, and have uniforms and caps, they haven't any guns yet but expect to get them soon.

New Saddler in Town.

Mr. H. D. Sale, of Paducah, an experienced harness and saddle maker has moved to Marion and opened a harness and repair shop in the room formerly occupied by Hardin's next door to Taylor & Cannon's on Masonic corner. This is a much needed enterprise in Marion and will meet with good support and patronage right from the start. Mr. Sale comes highly recommended. For more than ten years he has worked in Rehoboth's Saddle, Collar & Harness factory at Paducah.

Bishop Lane at Court House.

Rev. Bishop Isaac Lane, D. D., of Jackson, Tenn., Bishop of the colored Methodist church, will speak at the court house Monday night May 13. Bishop Lane is well known throughout our Southland and next to Booker T. Washington, is regarded a leader of his race. The people of Marion know him, he having preached during the Conference of M. E. church south. The white people are cordially invited to attend his service.

The Nerve of Foley

THE railroad life there is always friction in some quarter. The railroad man sleeps like the soldier, with an ear alert, but just the same he sleeps for with waking comes duty.

Our engineers were good fellows. If they had faults they were American faults—rashness, a liberality bordering on extravagance and a headstrong, violent way of reaching conclusions—traits born of ability and self confidence and developed by prosperity.

One of the best men we had on a locomotive was Andrew Cameron, at the same time he was one of the hardest to manage, because he was young and headstrong. Andy, a big, powerful fellow, ran opposite Felix Kennedy on the floor. The fast runs require young men. If you will notice, you will rarely see an old engineer on a fast passenger run. Even a young man can stand only a few years of that kind of work. High speed on a locomotive is a question of nerve and endurance—to put it bluntly, a question of flesh and blood.

"You don't think much of this strike, do you, Mr. Reed?" said Andy to me one night.

"Don't think there's going to be any, Andy."

He laughed knowingly.

"What actual grievance have the boys?" I asked.

"The trouble's on the East End," he replied evasively.

"Is that any reason for calling a thousand men out on this end?"

"If one goes out, they all go."

"Would you go out?"

"Would I? Yes, I would."

"A man with a wife and a wife with a baby, boy, like yours ought to have more sense."

Getting up to leave, he laughed again confidently. "That's all right. We'll bring you fellows to terms."

"Maybe," I reported as he closed the door. But I hadn't the slightest idea they would begin the attempt that night.

I was at home and sound asleep when the engine tapped on my window. I threw up the sash. It was pouring rain and dark as a pocket.

"What is it, Barney? A wreck?" I exclaimed.

"Worse than that. Everything's tied up."

"What do you mean?"

"The engineers have struck."

"Struck? What time is it?"

"Half past 3. They went out at 3 o'clock."

Throwing on my clothes, I floundered behind Barney's lantern to the depot. The superintendent was already in his office talking to the master mechanic.

Bulletins came in every few minutes from various points announcing trains tied up. Before long we began to hear from the East End. Chicago reported all engineers out; Omaha wired no trains moving. When the sun rose that morning our entire system, extending through seven states and territories, was absolutely paralyzed.

It was an astounding situation, but one that must be met. It meant either an ignominious surrender to the on-glucers or a fight to the death. For our part, we had only to wait for orders. It was just 6 o'clock when the chief train dispatcher, who was tapping at a key, said:

"Here's something from headquarters."

We crowded close around him. His pen flew across the clip; the message was addressed to all division superintendents. It was short, but at the end of it he wrote a name we rarely saw in our office. It was that of the railroad magnate we knew as "the old man," the president of the system, and his words were few:

"Move the trains."

"Move the trains?" repeated the superintendent. "Yes, but trains can't be moved by pinch bars nor by main force."

We spent the day arguing with the strikers. They were friendly, but firm. Persuasion, entreaties, threats, we exhausted and ended just where we began, except that we had lost our tempers. The sun set without the turn of a wheel. The victory of the first day was certainly with the strikers.

Next day it looked pretty blue around the depot. Not a car was moved. The engineers and firemen were a unit. But the wires sang hard all that day and all that night. Just before midnight Chicago wired that No. 1—our big passenger train, the Denver flyer—had started out on time, with the superintendent of motive power as engineer and a wiper for fireman. The message came from the second vice president. He promised to deliver the train to our division on time the next evening, and he asked, "Can you get it through to Denver?"

We looked at each other. At last all eyes gravitated toward Nelghor, our master mechanic.

"What shall I say?" he asked.

The division chief of the motive power was a tremendously big Irishman with a voice like a fog horn. With an

instant's hesitation the answer came clear:

"Say 'yes.'"

Every one of us started. It was throwing the game of battle. Our word had gone out; the division was pledged; the light was on.

Next evening the strikers through some mysterious channel got word that the flyer was expected. About 9 o'clock a crowd of them began to gather round the depot.

It was after 1 o'clock when No. 1 pulled in, and the foreman of the Omaha roundhouse swung down from the locomotive cab. The strikers clustered around the engine like a swarm of angry bees, but that night, though there was plenty of jeering, there was no actual violence. When they saw Nelghor climb into the cab to take the run west there was a sullen silence.

Next day a committee of strikers, with Andy Cameron, very cavalier, at their head, called on me.

"Mr. Reed," said he officiously, "we've come to notify you not to run any more trains through here till this strike's settled. The boys won't stand it. That's all." With that he turned on his heel to leave with his following.

"Hold on, Cameron," I replied, raising my hand as I spoke; "that's not quite all. I suppose you men represent your grievance committee?"

"Yes, sir."

"I happen to represent, in the superintendent's absence, the management of this road. I simply want to say to you and to your committee that I take my orders from the president and the general manager—not from you nor anybody you represent. That's all."

Every hour the bitterness increased. We got a few trains through, but we were terribly crippled. As for freight, we made no pretense of moving it. Train loads of fruit and meat rotted in the yards. The strikers grew more turbulent daily. They beat our roundhouse and stripped our locomotives. They cut the wires with the new wire cutters and pulled the rails out of the ground. They burned our roundhouse, they got our engines out of order all the time. They cut the wires and pulled the rails out of the ground. They burned our roundhouse, they got our engines out of order all the time. They cut the wires and pulled the rails out of the ground. They burned our roundhouse, they got our engines out of order all the time.

I kept tabs on one of the new engines for a week. He began by backing into a diner so hard that he smashed every dish in the car and ended by running into a siding a few days later and setting two tanks of oil on fire, that burned up a freight depot. I figured he cost us \$10,000 a week he ran. Then he went back to selling whistles.

After this experience I was sitting in my office one evening, when a youngish fellow in a slouch hat opened the door and stuck his head in.

"What do you want?" I growled.

"Are you Mr. Reed?"

"I want to speak to Mr. Reed."

"Well, what is it?"

"Are you Mr. Reed?"

"Confound you, yes! What do you want?"

"Mr. Reed, I don't want anything. I'm just asking that's all."

His impudence staggered me so that I took my feet off the desk.

"Heard you were looking for men," he added.

"No," I snapped. "I don't want any men."

"Wouldn't be any show to get on an engine, would there?"

A week earlier I should have risen and fallen on his neck, but there had been others.

"There's a show to get your head broke," I suggested.

"I don't mind that if I get my time."

"What do you know about running an engine?"

"Run one three years."

"On a thrashing machine?"

"On the Philadelphia and Reading."

"Who sent you in here?"

"Just dropped in."

"Sit down."

I eyed him sharply as he dropped into a chair.

"When did you quit the Philadelphia and Reading?"

"About six months ago."

"Fired?"

"Strike."

I began to get interested. After a few more questions I took him into the superintendent's office, but at the door I thought it well to drop a hint.

"Look here, my friend, if you're a spy you'd better keep out of this. This man would wring your neck as quick as he'd suck an orange. See?"

"Let's tackle him anyhow," replied the fellow, eying me coolly.

I introduced him to Mr. Lancaster and left them together. Pretty soon the superintendent came into my office.

"What do you make of him, Reed?"

"What do you make of him?"

Lancaster studied a minute.

"Take him over to the roundhouse and see what he knows."

I walked over with the new find, clattering warily. When we reached a live engine I told him to look it over. He threw off his coat, picked up a piece of waste and swung into the cab.

"Run her out to the switch," said I, stepping up myself.

He pushed the throttle, and we

steamed slowly out of the house. A minute showed he was at home on an engine.

"Can you handle it?" I asked as he shut off after backing down to the roundhouse.

"You use soft coal," he replied, trying the injector. "I'm used to hard coal. This injector is new to me. Guess I can work it, though."

"What did you say your name was?"

"I didn't say."

"What is it?" I asked curtly.

"Foley."

"Well, Foley. If you have as much sense as you have gull you ought to get along. If you act straight, you'll never want a job again as long as you live. If you don't, you won't want to live very long."

"Got any tobacco?"

"Here, Baxter," said I, turning to the roundhouse foreman, "this is Foley. Give him a chew, and mark him up to go out on 77 tonight. If he monkeys with anything around the house, kill him."

Baxter looked at Foley, and Foley looked at Baxter, and Baxter not getting the tobacco out quick enough, Foley reminded him he was waiting.

We didn't pretend to run freight, but I concluded to try the fellow on one, feeling sure that if he was crooked he would ditch it and skip.

So Foley ran a long string of engines and a car or two of rotten oranges down to Harvard Junction that night, with one of the dispatchers for pilot. Under my orders they had a train made up at the Junction for him to bring back to McCloud. They had picked up all the strays in the yards, including half a dozen cars of meat that the local board of health had condemned after it had laid out in the sun for two weeks and a car of butter we had been shifting around ever since the beginning of the strike.

When the strikers saw the stuff coming in next morning behind Foley they concluded I had gone crazy.

"What do you think of the track Foley?" said I.

"Fair," he replied, sitting down on my desk. "Stiff hill down there to Zanesville."

"Any trouble to climb it?" I asked for I had purposely given him a best train.

"Not with that car of butter. If you hold that butter another week, it'll climb a hill without any engine."

"Can you handle a passenger train?" I asked.

"I guess so."

"I'm going to send you west on No. 124."

"That's all right, but I want to see you first. That way you can see last night's work. That's a better red pepper. The passenger train west of the coal."

"I'll be with you myself, Foley. Can you stand it?"

"Can you stand it?"

"I can stand it if you can."

When I walked into the roundhouse in the evening with a pair of overalls on Foley was in the cab getting ready for the run.

Neighbor brought the fire in from the east. As soon as he had accepted and got out of the way we looked down with the fire. It was the best engine we had left and, luckily for my back, an easy steamer. Just as we coiled to the main car a crowd of strikers swarmed out of the yard. They were in an ugly mood, and when Andy Cameron and But Nichols sprang up into the cab I saw we were in for trouble.

"Look here, partner," exclaimed Cameron, laying a heavy hand on my

shoulder. "You don't want to take this train out, do you? You wouldn't beat honest workmen out of a job?"

"I'm not beating anybody out of a job. If you want to take out this train, take it out. If you don't, get out of the cab."

Cameron was nonplused. Nichols, a surly brute, raised his fist menacingly.

"See here, boss," he growled, "we won't stand no scabs on this line."

"Get out of this cab."

"I'll promise you you'll never get out of it alive, my bunk, if you ever get into it again!" cried Cameron, swinging down. Nichols followed, muttering angrily. I hoped we were out of the scrape; but, to my consternation, Foley, picking up his oil can, got right down behind them and began filling the cups without the least attention to anybody.

Nichols sprang on him like a tiger. The onslaught was so sudden that they

steamed slowly out of the house. A minute showed he was at home on an engine.

"Can you handle it?" I asked as he shut off after backing down to the roundhouse.

"You use soft coal," he replied, trying the injector. "I'm used to hard coal. This injector is new to me. Guess I can work it, though."

"What did you say your name was?"

"I didn't say."

"What is it?" I asked curtly.

"Foley."

"Well, Foley. If you have as much sense as you have gull you ought to get along. If you act straight, you'll never want a job again as long as you live. If you don't, you won't want to live very long."

"Got any tobacco?"

"Here, Baxter," said I, turning to the roundhouse foreman, "this is Foley. Give him a chew, and mark him up to go out on 77 tonight. If he monkeys with anything around the house, kill him."

Baxter looked at Foley, and Foley looked at Baxter, and Baxter not getting the tobacco out quick enough, Foley reminded him he was waiting.

We didn't pretend to run freight, but I concluded to try the fellow on one, feeling sure that if he was crooked he would ditch it and skip.

So Foley ran a long string of engines and a car or two of rotten oranges down to Harvard Junction that night, with one of the dispatchers for pilot. Henry Albert M. house and lot in Marion Ky taxes for 1904-5-6	7.80
Henry S. N. house and lot in Marion Ky taxes for 1905-6	11.45

H. A. HAYNES Treasurer,
Marion Graded Common School Dist. No. 27
This April 1st, 1907.

Eczema is Now Curable

ZEMO, a scientific preparation for external use, stops itching instantly and destroys the germs that cause skin diseases. Eczema quickly yields and is permanently cured by this remarkable medicine. All Druggists. Write for sample, E. W. Rose Med. Co., St. Louis, Mo. HAYNES & TAYLOR.

Louis O. Lowery, of Fredonia, Ky., has been appointed an eligible substitute in the railway mail service out of Louisville. He will soon be assigned to lines under the local office.—Louisville Herald.

Pain caused by boils, burns, cuts, scalds and skin diseases is promptly relieved by De Witt's Carbolicized Witch Hazel Salve. Good for piles. Sold by J. H. Orme.

COMMISSIONER'S SALE.

B. T. White, Plff. vs Equity

A. J. Grant, etc., Plff. vs Equity

By virtue of a judgment and Order of Sale of the Crittenden Circuit Court, rendered at the March Term thereof, 1907, in the above cause for the sum of \$300 with interest at 6 per cent per annum from the 8 day of Oct. 1902, until paid, and \$50 costs hereon, I shall proceed to offer for sale at the Court-house door in Marion to the highest bidder, at Public Auction, on Monday the 13th day of May, 1907, at 1 o'clock P. M. or thereabout (being Court day), upon a credit of six months, the following described property to wit:

A certain tract of land lying and being in the county of Crittenden and state of

and him under their feet in a minute, I jumped down, and Ben Buckley, the auditor, came running up. Between us we gave the little fellow a life. He sprang out like a cat and landed in the street against the trunk.

"Come in a minute, and come out," he said. "If it is to be a life, it will be a life. With a quick, powerful movement, he sprang out like a cat and landed in the street against the trunk.

"For heaven's sake, pull out of this before there's bloodshed," I cried, and, nodding to Buckley, Foley ceased the choker.

It was a tight run and a new truck of him. I tried to fire and pilot both, but after Foley suggested once or twice that if I would tend to the coal he would tend to the curves I let him and then, and he found them all I thought, before we got to Athens. He took big chances in his running, but there was a superb confidence in his sense of speed which marked the fast runner and the experienced one.

At Athens we had barely two hours to rest before starting back. I was over tired in my life. I struck the trunk that night, but before I got it, the caller called me out again. The trunk and car was on time or out of it, and when I got into the car, the trunk was just coming out.

"Did you get a nap?" I asked as we started out.

"No, we slipped an essential coming out. I've been under the engine since. Say, she's a good one. She's all right. I couldn't run her coming up, but I've touched up her valve motion on a lat and I'll get her as soon as it's daylight."

"Don't mind getting action on my part," Foley, I'm shy on life insurance."

He laughed.

"You're safe with me. I never killed a woman or child in my life. When I do, I quit the job. Give her a couple of diamonds, if you please," he added, letting her out full.

He gave me the ride of my life. He tried to show me he was so goodly, and I was so goodly. We had but one stop for water—and after that, we had a long drive. We looked along as we went, but the pace was a fair one. After we passed Athens we never touched a thing but the high speed. The long heavy train behind us, and the heavy ones in a while as the fall of a very capricious kite, over his head, and that's an engineer's sign, she always lit on the steel.

Foley broke ahead and between wheels I caught the glory of a sunrise on the plains from a locomotive window. When the smoke of the train and the smoke of the horizon, remembering the ugly threats of the smoke, I left my seat to speak to Foley.

"I think you'd better swing off when you slow up for the yards and go across to the roundhouse," I said, coming close to his ear for we were in the speed. He looked at me and said, "In that way you won't be so close to the smoke of the train. I added, 'I can stop her at any time.'"

He didn't take his eyes off the track. He took the train to the platform and he took it.

"Don't take a crossing out ahead?" he added suddenly as we swung round a west of town.

"Yes, and a bad one."

He reached for the whistle and gave his long warning screams. I set the bell ringer and stopped to open the door to cool the fire, when—bang! I flew up against the water gauges like a coupling pin. The monster engine roared right up on her head, scrambling to my feet, I saw the new train chugging the air lever with both hands and every wheel on the train was screaming. I jumped to his side and looked over his shoulder. On the crossing just ahead a big white horse, dragging a buggy, plunged and reared frantically. Struggling on the buggy sat a baby boy, dumbfounded, to the lazyback—not another soul in sight. All at once the horse swerved sharply back. The buggy lurched half over. The lines seemed to be caught around one wheel. The little fellow, clinging on, but the crazy horse, instead of running, began a hornpipe right between the deadly rails.

I looked at Foley in despair. From the monstrous quivering leaps of the great engine I knew the drivers were at the clutch of the mighty air brake, but the relentless momentum of the train was none the less sweeping us down at deadly speed on the baby between the two tremendous forces the locomotive shivered like a giant's foot. I sprang back in horror, but the man at the throttle, throwing the air on the burning wheels, leaped from his box with a face transfigured.

"Take her!" he cried, and, never shifting his eyes from the cut, he shot through his open window and darted like a cat along the running board to the front.

Not a hundred feet separated us from the crossing. I could see the baby's face blowing in the wind. The horse suddenly leaped from across the track to the side of it. That left the buggy quivering with the rails, but not twelve inches clear. The way the wheels were crumpled a single step ahead would throw the hind wheels into the train; a step backward would shove the front wheels into it. It was appalling.

Foley, clinging with one hand to a

light bracket, dropped down on the steam chest and swung far out. As the engine lurched and the buggy like a winged and a winged rod and caught the baby by the shoulders. The impetus of the train, as the child high in the air, but Foley's step was on the little engine, and the youngster leaped back he caught it. I saw the horse give a leap. It sent the land wheels into the corner of the baggage car. There was a crash like the report of a hundred rifles and the buggy flew in the air. The big horse was thrown fifty feet, but Foley, with a great light in his eyes and the baby boy in his arm, crawled, laughing, into the cut.

"Thinking he would take the engine again, I tried to raise the baby. 'Take her, well, I think so.'"

"The horse, then," shouted the little engine wildly, "that's a corking pair of horses on your son! I caught the kid right by the seat of the pants!" he called over to me, laughing hysterical.

"Heaven, little man, I wouldn't have struck you for all the gold in Athens. I've got a chunk of a boy in Athens as much like him as a twin brother. What were you doing all alone in that engine? Where did you suppose it was? What's your name, son?"

At his question I looked at the child again, and I started. I had certainly seen him before, and had I not, his father's features were too well stamped on the child's face for me to be mistaken.

"Foley," I cried, all amazed, "that's Cameron's boy, little Andy."

He tossed the baby the higher; he looked the happier, he shouted the louder.

"The deuce it is! Well, son, I'm mighty glad of it. And I certainly was glad mightily glad, as Foley expressed it, when we pulled up at the depot, and I saw Andy Cameron, with a wicked look, pushing to the front through the threatening crowd. With an angry growl, he made for Foley."

"I'm not business with you, son!"

"I'm not a little with you, son," Foley retorted, stepping leisurely down from the side. "I struck a buggy back here at the first cut, and I hear it was yours." Cameron's eyes began to bulge. "I guess the outfit's damaged some all but the boy. Here, kid," he added, turning for me to hand him the child. "Here's your dad."

The instant the youngster caught sight of his parent he set up a yell. Foley, laughing, passed him into his astonished father's arms before the latter could say a word. Just then a boy, running and squeezing through the crowd, cried to Cameron that his horse had run away from the house with the baby in the buggy and that Mrs. Cameron was having a fit.

Cameron stood like one dazed, and the boy, catching sight of the baby that instant, panted and stared in an idiotic state.

"Andy," said I, getting down and laying a hand on his shoulder, "if these fellows want to kill this man let them do it alone. You'd better keep out. Only this minute he has saved your boy's life."

The sweet stood out on the big engineer's forehead like dew. I told the story. Cameron tried to speak, but he tried again and again before he could find his voice.

"Mate," he stammered, "you've been through a strike yourself—how can what it means, don't you? But if you've got a baby—" he gripped me by the shoulder.

"I have, partner; three of 'em."

"Then you know what this means," said Andy, huskily putting out his hand to Foley. He gripped the little man's fist hard, and, turning, walked away through the crowd.

Somewhat it put a damper on the boys. Hal Nicholson was about the only man left who looked as if he wanted to eat somebody, and Foley, slinging his blouse over his shoulder, walked up to that and tapped him on the shoulder.

"Stranger," said he gently, "could you oblige me with a chew of tobacco?"

But glared at him an instant, but Foley's nerve won.

Flushing a bit, Hal struck his hand into his pocket, took it out, felt hurriedly in the other pocket, and, with some confusion, acknowledged he was short. Felix Kennedy intervened with a shub, and the three men fell at once talking about the accident.

A long time afterward some of the striking engineers were taken back, but none of those who had been guilty of actual violence. This barrel Andy

Cameron, who, though not worse than many others, had been less prudent and, while we all felt sorry for him after the other boys had gone to work, Cameron repeatedly and positively refused to renege him.

Several times, though, I saw Foley and Cameron in confab, and one day up came Foley to the superintendent's office, leading little Andy, in his overalls, by the hand. They went into Lancaster's office together, and the door was shut for a long time.

When they came out little Andy had a piece of paper in his hand.

"Hang on to it, son," cautioned Foley, "but you can show it to Mr. Reed if you want to."

The youngster handed me the paper. It was an order directing Andrew Cameron to report to the master mechanic for service in the morning.

I happened over at the roundhouse one day nearly a year later, when Foley was showing Cameron a new engine just in from the east. The two men were become great cronies; that day they fell to talking over the strike.

"There was never but one thing I really laid up against this man," said Cameron to me.

"What's that?" asked Foley.

"Why the way you showed that pistol into my face the first night you took out No. 1."

"I never showed any pistol into your face." So saying, he struck his hand into his pocket with the identical motion he used the night of the strike, and leveled at Andy, just as he had done then—a ping of tobacco. "That's all I ever pulled on you, son. I never carried a pistol in my life."

Cameron looked at him, then he turned to me, with a tired expression.

"I've seen a good many men, but I've seen a good many kinds of nerve, but I've splintered if ever I saw any one man with all kinds of nerve till I struck Foley."

How and When to Eat.

There are a few plain facts about how and when to eat which it would be worth a man's while to keep in mind even when well. If you are in a hurry, eat lightly. There is no virtue in gulping down a large meal just because it is mealtime. While the mind is actively engaged in the details and responsibilities of business, the digestive apparatus is in no condition to undertake heavy work. The blood supply is drained off elsewhere, giving all the contribution it can to the brain, and if a quantity of food be taken in it simply remains undigested in the stomach. Worry, unsettled mind, low spirits, all tend to delay or to stop the activities of the alimentary canal. Students who go at hard head work immediately after meals often suffer from indigestion. So do letter carriers and other people whose meals are followed by prolonged physical exertion. Indeed, any kind of effort which forces the blood away from the alimentary region is injurious after nearly eating—Dr. Gulick in World's Work.

Indian Medicine Bags.

The medicine bags of Navajos, Zulus and Apaches, all kindred tribes, contain a curious powder known as corn pollen or haidentia. This powder, which is the pollen of a rush and also of maize, appears to be used as a medicine, being eaten by the sick and put on the head or other parts to ease pain, but principally as a sacred offering to the sun and moon and as a sanctifier of everything. A pinch of it is thrown toward the sun and then toward the four winds for help in war or in the chase, is put on the trail of a snake to prevent harm from it, placed in the tongue of the first hunter as a restorative, hung in bags round the necks of infants as a preservative and sprinkled on the dead. In fact, every action of these Indians is sanctified by this powder, so that, as Captain Bourke writes in the ninth volume of "The Report of the Bureau of Ethnology" (Smithsonian), "plenty of accident has come to mean that a particular performance or place is sacred."

England's Coast Lights.

"The coastwise lights of England," of which Kipling sings, have been increasing in brilliancy as well as in number ever since the dawn of the nineteenth century. In that dark age weary mariners crawled into port by the flickering glare of twenty-five beacons and six floating lights. Now they may glide safely into haven under the powerful beams of 880. Lighthouses are as ancient as civilization. The Pharos of Alexander flung its light on the decks of oriental barges 2,257 years ago. The Romans, who loved the light, have left the ruins of one of their lighthouses on a cliff at Bonlogne, while at Dover may still be seen all that remains of another. Petroleum and the electric light have made the early nineteenth century lighthouses ridiculous. On the summit of the lower an open grate was fed with bits of wood and later with coal. Soot and abandoned coal altogether for more up to date methods in 1810 and England six years afterward.

Mermals and Mermen.

Nearly all nations have folklore and fairy tale accounts of mermals and sometimes of mermen. Even the American Indians had their "woman fish" and "man fish." The Chinese tell stories about their sea women of the northern seas. Sometimes mermals and mermen are represented as leaving the water and living with human beings, but more frequently they are pictured as being so attractive that they sometimes will lure human beings to destruction in the depths of the sea. These myths have been utilized by many poets and have even been used for stories "with a moral"—St. Nicholas.

Ramon Hughes (colored) Dead.

Ramon, the youngest son of Joseph and Adeline Hughes (col.) was born Dec. 11th, 1884, and died April 28, 1907. He was twenty-two years four months and seventeen days old. He leaves a mother, four brothers, one sister and a host of relatives and friends to mourn their loss. He professed a hope in Christ in the autumn of 1904, and soon thereafter he became a member of the Cumberland Presbyterian church at this place, in which he lived a faithful member until called away by death. He was a lover of Sabbath School and rarely failed to be at his post at the opening services. He had served quite a while as secretary of the Sabbath school, and it was said in presence of the writer: "That Ramon was the best secretary we ever had." Ramon was a good boy. He was an honored son, of an honored father. The writer preached his funeral to a large audience of his friends and relatives, after which his body was conveyed to the old family graveyard on Crooked Creek where it was deposited to remain until the resurrection morn. W. L. Clark.

Clothing of A Dead Child Gives Family Diphtheria.

Huntingburg, Ind., May 1.—The family of John Ellis, who reside near Heilman, a small town several miles south of this city, is having a siege of diphtheria, the disease having been caught in an unusual manner.

About fourteen years ago a child of Mr. Ellis died of diphtheria, and after its burial the child's clothes were packed away in a trunk and the trunk locked. For fourteen years this trunk was not opened until one day last week, when one of the children opened it and took out the clothes of her departed sister. A few days later the child became sick, and the physician called pronounced the disease diphtheria and said the child had caught it from the clothes that had been packed away in the trunk. Every member of the Ellis family is now sick with diphtheria, excepting the father. The mother's condition is reported quite serious.—Louisville Herald.

Notice to Users of Electric Fans.

MARION COMMERCIAL CLUB

Large and Enthusiastic Meeting at the
Court House Monday Night—
With 60 Members

The citizens of Marion met Monday night and re-organized the Commercial Club. The membership fee charged is one dollar per year. The following members were chosen:

Pres., T. H. Cochran; Vice Pres., J. W. Blue, Jr.; Treas., J. H. Orme; Sec'y, C. E. Weldon. Messrs. T. H. Cochran, J. W. Blue, Jr., J. H. Orme and C. E. Weldon were appointed a committee to investigate the facts about the proposed Railroad and use their influence to have the new road intersect the I. C. at Marion.

The Club adjourned to meet again next Monday night, May 13. Every body is urgently requested to attend and do everything possible to give our little city every advantage.

The Eighth Grade Graduates

Last week we published a list of those graduating this year in the High School. Elsewhere in this issue we publish a list of the Eighth Grade graduates. There are thirty-four of them, which is an unusually large class, and it is composed of some of the best talent in the school and proves that the young folks have worked hard and deserve the diplomas which will be awarded to them. The programme each evening will be interspersed with rare musical selections rendered by the Marion orchestra.

Stembridge Family Reunion.

H. R. Stembridge requests all his children grand children and great grand children to meet him at Henry Belts house on the Fords Ferry road 5 miles from Marion on Sunday May 26th, at which time he hopes all his kindred will be enjoying good health and able to attend, the family reunion of 1907.

Marion Milling Company's Products.

The makers name on a food article means a great deal to the consumer—also to the maker of the product if it has merit.

The name Marion Milling Co., stands back of it—it means that the maker is proud to use his name in connection with the product.

The names "ELK" and "CROWN" is on all the flour products of the Marion Milling Co., because the makers are positive their flour is clean, honestly made, wholesome and satisfactory and that the product is a credit to their name.

When you buy the Marion Milling Company's flour product you know what you are getting, and you know that their guarantee behind it means something.

When you order from your grocer specify the Marion Milling Company's Flour and help a home industry, and same will be appreciated by your friends.

Balloon Floated For Two Hours.

St. Louis, Mo., April 27.—Aeronaunt Allen R. Hawley, of New York, made an ascension this afternoon in the balloon Orient, and was carried sixty-seven miles before coming to earth, being up for an hour and fifty minutes. The balloon came down in the midst of a herd of cattle on the farm of Robert Hasdicastle.

Kodol for indigestion and dyspepsia not only digests what you eat, it tones stomach and adds strength to the whole body. Makes rich, pure blood. Kodol is made in conformity to the National Pure Food and Drug Law. Sold by J. H. Orme.

Better to die with empty hands and still facing heavenward, than to die with both hands filled with earth and your back toward God.—Chicago Tribune.

He Fought at Gettysburg.

David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great alternative and body builder; sure cure for lame back and weak kidneys. Guaranteed by J. H. Orme, druggist, 50c.

Notice to Pensioners.

To all 2 and 3 year men and their heirs, who enlisted in the war of 1861 to 1865 who enlisted from April 2nd, to July 17th 2864 will correspond with me, it will be to their interest. T. A. HARPENDING, Salem, Ky.

COLDEST APRIL

Comes Within One Degree Of Being Record So Far as Weather Bureau Has Figures.

Washington, D. C., April 30.—The month ending today was the coldest April in the last twenty-six years and within a degree of the coldest April ever experienced according to the weather bureau. The bureau's report tonight says: "The month was characterized by a succession of cold spells which swept southeastward over the north-east Rocky mountain slope and gradually spread southward and eastward over the entire country east of the Rocky mountains. The cold was almost continuous except for brief intervals of a day so of warmer weather and the month closes with remarkable low temperature in the interior valleys and in the southwest."

War Against Consumption.

All nations are endeavoring to check the ravages of consumption, "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. Ask for Foley's Honey and Tar and insist upon having it. Sold by J. H. Orme.

Letter Form Texas.

Hereford, Texas., April 21st, 1907. Mr. S. M. Jenkins.

DEAR SIR—As I am at this part at present and stopping with our old friend, Joe Hunter Travis, Hereford is a nice prohibition town of a population of 3500, full of churches, schools and good people, and I think surrounded by a good country, with some very fine cattle and stock, a nice little river to fish in, game, plenty of jack rabbits, chickens, birds, prairie wolf and antelope, also ducks. It has been snowing for the last two days to beat the band. Travis and I are going duck hunting to-morrow if the weather will permit. This may look strange, nevertheless I find it so, your friend D. N. RILEY.

FOR RHEUMATISM

Simple, But Good.

Go to any good drug store and ask for the following prescription: Caszara Aromatic, one-half ounce; Concentrated Barkola Compound, one ounce; Fluid Extract Prickly Ash Bark, one-half drachm; Aromatic Elixir, four ounces. Take a teaspoonful after each meal and at bedtime. Drink plenty of good, pure water during the day, and your Rheumatism should soon pass away.

This is the prescription most frequently used by George Edmund Flood, M. D., the specialist, and he is authority for the statement that it is in his opinion the most reliable and effective remedy for Rheumatism, Kidney or Bladder Troubles ever written.

Any good druggist will put up the prescription or will supply you with the ingredients at a small cost.

The Time Is Short

The opportunity to secure a yearly subscription to The Louisville Herald in connection with this paper at the ridiculously low price announced by us will expire on May 20. The Publishers of The Louisville Herald are notifying all subscription agents and newspaper publishers that the price their paper must be advanced after the 20th of May on account of the increase in price of white paper and materials. We would advise all who desire to read a metropolitan newspaper in connection with the home paper during the next year to take advantage of the combination price and to send order to us at once.

New graham flour at Morris & Yates.

Stop Grumbling

if you suffer from Rheumatism or pains, for Balard's Snow Liniment will bring quick relief. It is a sure cure for Sprains, Rheumatism, Contracted muscles and all pains—and within the reach of all. Price 25c, 50c, \$1.00. C. R. Smith, Tenaha, Tex. writes: I have used Balard's Snow Liniment in my family for years and have found it a fine remedy for all pains and aches. I recommend it for pains in the chest." Sold by J. H. Orme.

BABY IS FOUND ON A RAFT

Waif Fished Out of Willows and Adopted by Discoverers.

Centerville, Mo., May 1.—A boy baby, apparently only a few weeks old, was fished from the creek near North Ellington, a few nights ago by the children of John Ashbury, a farmer. The baby was wrapped in a quilt and strapped to an improvised raft. The raft had floated down creek evidently several miles and lodged in the willows. The baby was carried home by the children and now is one of them.

If You Don't

succeed the first time use Herline and you will get instant relief. The greatest liver regulator. A positive cure for Constipation, Dyspepsia, Malaria, Chills and all liver complaints. Mr. C., of Emory, Texas., writes: "My wife has been using Herline for herself and children for five years. It is a sure cure for constipation and malaria fever, which is substantiated by what it has done for my family."

SPECIAL COMMISSIONER'S SALE.

William A. Fowler, 1907 vs. Robert L. Fowler, Thos. G. Fowler et al. 1911. Equity

By virtue of a judgment and Order of Sale of the Crittenden Circuit Court, rendered at March Term there of 1907, in the above cause, I shall proceed to offer for sale at the Court house door in Marion to the highest bidder, at Public Auction, on Monday the 13 day of May 1907 at 1 o'clock P. M. or thereabouts, (during Court day), upon a credit of six months the following described property, to wit:

A certain house and lot situated in Marion Crittenden county, Ky. on Poplar street and bounded as follows to wit, beginning at East corner of yard at the corner of coal house thence with the line of said street West 50 feet to a cross fence thence North to Crowe's fence thence East with Crowe's line 50 feet, thence Southward to the beginning being the same house and lot conveyed by M. Copher and W. H. Copher to Mrs. Sallie Fowler on the 23rd day of December 1903 see deed recorded in deed book — page — in the office of the clerk of the Crittenden county court.

For the purchase price the purchaser, with approved security or securities, must execute Bond bearing legal interest from the day of sale until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms.

J. F. FRASARY, Special Commissioner

Higher Pay for Rural Carriers.

Washington, D. C., April 30.—It is announced at the postoffice department that 275 of the 661 rural carriers in Kentucky will receive the maximum salary of \$900 per year when the salary increase act takes

Great Relief

During that trying period in which women so often suffer from nervousness, headache, sick headache, or other pains, there is nothing that can equal Dr. Miles' Anti-Pain Pills. They stop the pains, soothe the nerves, and give to

Women

the relief so much desired. If taken on first indication of pain or misery, they will allay the irritable condition of the nerves, and save you further suffering. Those who use them at regular intervals have ceased to dread these periods. They contain no harmful drugs, and leave no effect upon the heart or stomach if taken as directed. They give prompt relief.

"I have been an invalid for 9 years. I have neuralgia, rheumatism and pain around the heart. By using Dr. Miles' Anti-Pain Pills I am relieved of the pain, and get sleep and rest. I think had I known of the pain pills when I was first taken sick, they would have cured me. I recommend them for periodic pains." MRS. HENRY PINK, E. Akron, O.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

WORMS

All children complain frequently of headaches, backaches, that "their stomachs hurt," and that they "don't feel good." This condition is a common one and the trouble is almost invariably due to pin worms.

Children haven't the strength to combat their ills and indispositions without the aid of some reliable medicine.

Dr. Caldwell's Syrup Pepsin

is an unfailing, harmless and absolute cure for worms, stomach and bowel troubles, and can be used as freely for either baby or the bigger child, as for full grown folks.

If your child seems indisposed, feverish, fretful, peevish and all out of sorts, these are symptoms of worms. One dose of DR. CALDWELL'S SYRUP PEPSIN will soon give way to health and vigor.

DR. CALDWELL'S SYRUP PEPSIN can be obtained at both dollar and half-dollar sizes from all druggists.

Your money will be refunded if it does not benefit your child.

Write for a free booklet containing full directions for the use of DR. CALDWELL'S Syrup Pepsin. It will tell you how to give it to your child, and how to keep them from getting worms again.

A Hard Debt to Pay.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equalled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by J. H. Orme druggist, 50c and \$1.00. Trial bottle free.

Mrs. Turley Dead.

Mrs. John Turley, of Fredonia, died April the 27, and was buried at Piney Sunday. The funeral services were conducted by Rev. J. B. McNeely, from Job 14: 14. "If a man die shall he live again." Mrs. Turley was a good woman. A large crowd was present in honor of her memory, and the discourse in her honor was delivered with spirit and power. A FRIEND.

CATARRH CAN BE CURED.

Kill The Germs by Breathing Hy-o-mei. Gives Quick Relief.

Many people who have suffered with catarrh for years naturally think they cannot be cured, and become discouraged.

The reason they have failed of cure is because they have not treated the disease with the local remedy, Hy-o-mei, which is breathed thru a neat pocket inhaler so that its healing medicated air reaches the most remote mircells, kills all catarrh germs and restores the mucous membrane of the nose, throat and lungs to a healthy condition.

Catarrh is really a local disease and to cure it, it must be treated by a remedy which reaches every spot in the nose and throat where the disease germs lodge. Hy-o-mei does this and gives relief from the first day's use.

A complete Hy-o-mei outfit cost but \$1.00 and Haynes & Taylor give a guarantee with every package to refund the money unless it cures.

A little Kodol taken occasionally, especially after eating, will relieve sour stomach, belching and heartburn. J. B. Jones, of Newport, Tenn., says three bottles of Kodol cured him of dyspepsia. It is sold here by J. H. Orme.

The Harnessing of The World.

The harnessing of the Kern river, 125 miles from Los Angeles, Cal., and the converting of the enormous water power of the canyon into electricity is nearly completed, and soon hundreds of miles of cables, supported by steel towers, will flash the world's longest long distance voltage, 75,000 volts. This enormous power is harnessed in and about the city of Los Angeles.

It was in 1900 that a hydraulic engineer inspected the Kern canyon and noted the marvelous water power which itself in dizzy tumbles down steep grades. The Edison Company of Los Angeles became interested and the following spring a geological party invaded the canyon with instruments and notebooks, and an army of workmen, wagons and tons of freight, surveying and building materials. The canyon was practically inaccessible, and a road ten feet wide and a mile long had been planned. The granite shoulder of the canyon sprang up in a steep, rocky slope, but the engineers had a plan. They built a small temporary dam with 100 horse power, and from the air compressed by the dam, they drove a line of pipes up the canyon, compressed air to the top of the canyon, where it was used to drive a small engine, which in turn drove a pump, which pumped water up the canyon, and so on, until the water reached the top of the canyon, where it was used to drive a large turbine, which in turn drove a generator, which produced electricity.

TEN CITY BLOCKS

Rockefeller Has Donated \$21,416,000 to Institution Since It Was Founded.

Chicago, April 26.—John D. Rockefeller, it was announced today has presented to the University of Chicago a tract of land, comprising about ten city blocks, valued at \$2,000,000. The tract will extend from Cottage Grove avenue to Madison avenue. It was added to the holding of the University some time ago, but the identity of the donor was kept secret. Within sixteen months Rockefeller has given \$6,000,000 to the university and his gifts since the founding of the institution amount to \$21,416,000.

The Life Insurance

muddle has started the public to thinking. The wonderful success that has met Balrd's Horehound Syrup in its crusade on Coughs, Influenza, Bronchitis and all Pulmonary troubles has started the public to thinking of this wonderful preparation. They are all using it. Join the procession and down with sickness. Price 25c, 50c, and \$1.00. Sold by J. H. Orme.

MISS MILLER

To Become a Bride In June as Result of Tour-to-Europe Trip.

A romance began on the ocean, during the first days of the tour to Europe which was given by the Courier-Journal last summer will reach its climax on June 21, when Miss Mary Miller, one of the winners of the Courier-Journal's contests, will become Mrs. T. A. Brown Bridges, a resident of Ekron.

Mr. Bridges is a son of the Rev. Dr. Charles A. Bridges, one of the best known Episcopal ministers in New York. Miss Miller is a daughter of Mr. and Mrs. Harry C. Miller of Ekron, and is one of the most popular young women in this section of the state.

Miss Miller was one of the contestants for the tour to Europe offered by the Courier-Journal, and she won in this district by a majority of about 100,000. She joined the party at Louisville and started on the trip, little thinking that the result would be to change the whole course of her life. On board the steamer, crossing to Europe, was Mr. Bridges. He met the pretty Kentucky girl among others of the party and at once fell in love with her. She seemed to return the affection and even before the ship landed the two were regarded as sweethearts.

Mr. Bridges accompanied the party for a few days after they reached England and was devoted in his attentions to Miss Miller. After they both returned to this country, Mr. Bridges came to Kentucky frequently and renewed his suit. He won her hand and on June 24 they will be united in marriage. They will leave at once for New York and from there will sail for another tour of Europe, but this time they will spend most of their time in Italy.—Ex.

Does Your Heart Beat

Yes. 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Poisons and impurities are then absorbed into the blood, instead of being removed from the body daily as nature intended. Keep the bowels open with Ayer's Pills, liver pills. All vegetable.

Made by J. C. Ayer & Co., Lowell, Mass. Also manufacturers of HAIR VIGOR, ACHIEVE CURE, CHERRY PECTORAL.

BALLOON AT GOLCONDA

Aeronauts Able to Make But 130 Miles Due to Changeable Air Currents.

Golconda, Ill., May, 1.—Captain Charles H. F. Chandler, U. S. signal service, and J. C. McCoy, of New York, failed to break the long distance balloon record and win the Lahm cup. Their balloon, which left St. Louis, Mo., yesterday evening, landed five miles north of Golconda, Ill., this afternoon. Golconda is only 130 miles from St. Louis. Changeable air currents caused the failure. The balloon was brought to Golconda in wagons.

McCoy goes with it from here to New York, while Captain Chandler goes to Washington.

Do You Love

your baby? You wonder why he cries. Buy a bottle of White's Cream Vermifuge and he will never cry. Most babies have worms, and the mothers don't know it. White's Cream Vermifuge rids the child of worms and cleans out its system in a pleasant way. Every mother should keep a bottle of this medicine in the house. With it, fear need never enter her mind. Price 25c. Sold by J. H. Orme.

Hiding Place Found Proves too Good.

Owensboro, Ky., April 26.—While playing hide and seek last night, Robert Hathaway, fourteen years of age, secured a hiding place which required the combined efforts of an entire neighborhood to find him, and when he was found he was in an unconscious condition. The boy got in a ditch which is being dug for water pipes, and about four feet of earth caved in on him. A companion with him gave the alarm, but it was some time before the men of the neighborhood could shovel the dirt off the boy.

Best For Women And Children.

On account of its mild action and pleasant taste Orino Laxative Fruit Syrup especially recommended for women and children. It does not nauseate or gripe like pills and ordinary cathartics. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating them. Remember the name Orino and refuse substitutes. Sold by J. H. Orme.

Returns With Prisoner In Charge.

Last week Sheriff W. D. Bishop left for the West in search of Miller C. Nelson, who was indicted on five counts at the last session of the grand jury for forgery. He found Nelson at Dallas, Texas and brought him back arriving here Tuesday evening on the Royal. Nelson consented to come back without a requisition and returned willingly with the officer. He was placed in charge of Jailer Worten and through the sympathy for the boy and his family that officer did not lock him up, but is guarding him to determine whether or not he can give the bond of \$1250. His trial will come up at the September term of Circuit Court.—Livingston Banner

Bile Poison

has a very bad effect on your system. It disorders your stomach and digestive apparatus, taints your blood and causes constipation, with all its fearful ills.

Thedford's Black-Draught

Is a bland tonic, liver regulator, and blood purifier. It gets rid of the poisons caused by over-supply of bile, and quickly cures bilious headaches, dizziness, loss of appetite, nausea, indigestion, constipation, malaria, chills and fever, jaundice, nervousness, irritability, melancholia, and all sickness due to disordered liver. It is not a cathartic, but a gentle, herbal, liver medicine, which eases without irritating.

A Well Known Fact

That no skin disease, whether from internal or external origin, can long withstand the two powerful germicides, ZEMO and ZEMOTONE, they destroy the germs that cause the disease, they always cure. Write for sample. E. W. Rose Med. Co., St. Louis. All Druggists sell it.

HAYNES & TALOYR.

Was Wasting Away.

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by J. H. Orme.

W. L. VENNER, Agt.

CHAPEL HILL

We still have cold weather over this way.

About half of the corn crop has been planted in this precinct and a great deal of that is rotting in the hill.

Wheat is looking bad, it is turning yellow and doing no good for the want of good old sunshine weather.

Oats are looking just only they are not growing as they should.

Tobacco plants in the first place are very scarce, but as a general thing they look well what is on the beds. Some half large enough to transplant.

The quickest way to kill a corn crop is to work the soil when it is too wet, that leaves the soil in bad shape to cultivate and bakes and dries out just when the moisture is most needed. Take this for what it is worth.

Mr. and Mrs. J. C. Munner and family were the guest Wm. Clark of Oak Grove Saturday and Sunday.

J. T. Bigham and family, of Crayneville, were visitors of Mr. and Mrs. W. W. Ward and family Saturday and Sunday.

Mr. and Mrs. H. S. Hill were the guest of Fley Threlkeld, of Crayneville, Saturday and Sunday.

Messrs. Butler and Walker last week started a telephone line thru Chapel Hill and the poles are up and in a few more days you can say hello to the boys of Chapel Hill, and tell us all the news.

Every body in this community is ready to plant corn and about the time they get ready to start off to plant, it begins to rain and so it leaves about half of the crop not planted.

We have some fruit, a few peaches apples, no pears, some plums and grapes, but few.

Miss Ada Hughes was the guest of George Perry's family Saturday and Sunday.

For Chills, Fevers And Malaria.

Try Yucatan Chill Tonic; it cures to stay cured. Insist on having it. Get the genuine. Guaranteed under the Pure Food and Drugs Act. Price 50c. Sold by all druggists.

BARNETT'S SCHOOL HOUSE.

Miss Ivy Vinson, of near Fredonia spent last week with Miss Cassie Moore.

Sunday School every Sunday. Every body invited to come.

Miss Conie Alley is teaching a spring school at this place.

Mrs. Wm. Sisco, of near View witnessed the death of her sister-in-law Mrs. Brown Sunday night.

Mr. Albert Sunderland has returned from near Tennessee river, where he witnessed the death of his daughter Mrs. Wilson Saturday morning.

Mrs. Brown also his daughter, both having died within forty-eight hours of each other.

We are sorry to learn of the death of Mrs. Charlie Brown. She was a sufferer of that dreaded disease consumption. She died Sunday night leaves a husband and three children and host of friends to mourn her loss.

A Criminal Attack

on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It's generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25c. at J. H. Orme's drug store.

LEVIAS

Sunday evening at 8 o'clock Every body invited to come.

Mr. Hugh Pflaum and wife attended Sunday School at this place Sunday.

Mr. A. J. Spickard had the misfortune to lose a good horse Saturday.

World's Sunday School Day.

To Sunday School Workers thruout the World. Christian Greeting.

The Executive Committee of the World's Fifth Sunday School Convention, American Section, invites Sunday School workers in all lands to unite in observing Sunday, May 19, 1907, as World's Sunday School Day by engaging in private and public prayer as occasion may offer for Sunday Schools thruout the world, and especially for the World's Fifth Sunday School Convention, which will then be in session in the city of Rome.

Ministers are asked to preach a special sermon, placing fresh emphasis upon the Sunday School as a most promising field for Evangelization and character building.

A universal compliance with this suggestion will make the greatest day in the history of the Sunday School. Not all may go to Rome, but each one may have a share in promoting the cause which the Convention represents.

By direction of the Committee.

Geo. W. Bailey, Chairman.

Win. N. Hartshorn, Sec'y.

Philadelphia, March 1, 1907. The above call is an exceedingly important one and the State Executive Committee is anxious to have it generally observed thruout the State. A special order of services for the day has been prepared and can be secured from the Sunday School Times, Philadelphia, for \$1.50 per hundred.

E. A. Fox, Gen'l Sec'y.
